Strategic Maneuvers to Be Worked Out Today by Fourth Regiment at Fremont.

#### REGIMENTAL PARADE SUNDAY

FREMONT, Neb., Aug. 13.—(Special Telegram.)—Everything is in readiness for the war maneuvers in which the entire Fourth Regiment, Nebraska National Guard, will take part tomorrow afternoon. The regiment will be divided into two squadrons and will be required to work out strategic positions mapped out by the war instructors. The soldiers will break camp at 5 o'clock and it is expected most of the maneuvers will be required in the afternoon. Officers will have charge of the forces. It is probable no shots will be fired.

**Morehead Staying at Home.**  
Sunday afternoon at 5 o'clock the regimental parade will be held. The entire force will take part in this pageant, which will be given at the grounds east of the camp. An effort is being made to get Governor Morehead to take part in the event. So far the chief executive has failed to consent to be here.

**Sports Fill Spare Time.**  
The monotony of camp life is broken by a program of sports and athletics each evening on the grounds. Boxing, wrestling and other forms of athletics are indulged in by the soldiers. Hundreds of Fremonters visit the camp daily to see the maneuvers. Regular drills and instruction in war occupy much of the militiamen's time in the forenoon.

### Nebraska TWO KILLED BY LIGHTNING Electric Bolt Fatal to Nels Matsen and Herman Thompson While Stacking Grain.

#### DEATH TO BOTH INSTANTANEOUS

HERMAN, Neb., Aug. 13.—(Special Telegram.)—While working on the farm of Ray Triplett, one mile west of town, stacking wheat, Herman Thompson and Nels Matsen were struck by lightning and instantly killed. The team attached to the wagon used in hauling the grain ran away and Anna Triplett, 9 years of age, who was on the vehicle, was thrown off and her left arm dislocated.  
The weather had been clear all afternoon and just before 5 o'clock a small cloud came up from the west, scattering a few drops of rain. Thompson and Matsen, the young men working for Triplett, had driven from the wheat field with a load of bundles and were half through unloading onto the stack when the shower came. The rain was so light that they did not stop work. There was one flash of lightning and from what can be learned, the bolt struck and instantly killed Matsen, who was on the stack, and instantly seemed to spread in a sheet of flame to the wagon load of bundles, killing Thompson.

The flash and the thunder that followed frightened the horses and they dashed off through the field, overturning the wagon. On the wagon, besides Thompson, were three children of Mr. Triplett. None of them except Anna were injured, though all were thrown to the ground and buried beneath the load of grain.

### Phone Rate Change Taken Into Courts

(From a Staff Correspondent.)  
LINCOLN, Aug. 13.—(Special.)—The question whether a village is bigger than a state will have to be decided by the supreme court, Victor Wilson of Stromsburg having filed in the supreme court an appeal from the state railway commission, which granted the Stromsburg Telephone company a raise in rates.  
Now Mr. Wilson claims that the franchise granted by the city, which included in it the rate to be charged for "phones, must stand and that the state commission has no authority to allow a change in the rates of the company.

The chance to make a test of the proposition will be welcomed by the railway commission, which has spent a great deal of time investigating rates and allowing changes in charges.

This was caused by the continuous wet weather which caused the wheat to sprout in the shock. Fall plowing for wheat is now under full swing. Corn is in A-1 shape and if killing frosts keep out of the way this country will have a bumper crop of corn. The third cutting of alfalfa has just been put away in fine shape.

#### Labor Losing Faith in the Courts, Says Anton Johannsen

A mass meeting was held by the various labor unions last evening in Washington hall in the interest of the defense of Dave Caplan and M. A. Schmidt, the indicted Los Angeles union men whose cases come up for trial next October. Anton Johannsen of Los Angeles delivered a lengthy address, in which he reviewed labor troubles of the last five years, including the iron workers' strike in Los Angeles, blowing up of the Times building, the indictment, trial and conviction of the iron workers in Indianapolis.

On all sides, he declared, capital is arrayed against labor. "Men are getting to have less and less faith in courts. Let us hope the time will soon come when they will have none," he declared. He even found sure evidence of the sinister and crafty hand of capital in the fact that most of the important events in the California and Indiana labor troubles occurred on Saturdays. Even juries brought in verdicts of guilty on Saturday at the behest of the "powers," he declared.

"Do you know why that is?" he asked. "It is so that the story can be in time for the Sunday newspapers. The Sunday papers have 16,000,000 more readers than the daily papers."

David Conitz, local organizer for the American Federation of Labor, presided and introduced the speakers.

Max Deszettel, editor of the Omaha Unionist, delivered a stirring address, calling upon working men to organize into closer unions. The recent gas bomb exploded in moving picture theaters, he declared to be the outgrowth of attempts of capital to keep down labor. He described the conditions of moving picture operators who, he said, "working twelve hours a day, seven days a week, are almost sure to lose their eyesight and very likely to develop tuberculosis," and yet there is great opposition to their organizing into unions.
